SUBJECT INDEX

A

p-Acetylaminobenzaldehyde thiosemicarbazone, toxic and antituberculous effects of, 549
Acetylcholine, actions on rabbit auricle, 335
Adrenaline,
  effect of insulin on content in suprarenal medulla, 417
  estimation of in mixtures with *nor*adrenaline, 142
  liberation from rabbit suprarenal glands, 542
Amidone and intestinal motility, 584
Amine oxidase, oxidation of aliphatic diamines by, 625
3-Amino-9-*p*-carbethoxyaminophenyl-10-methyl-phenanthridinium salts, pharmacology of, 287
Analgesics and intestinal motility, 584
Antibacterial action of five sulphones, 565
Anticurare activity of
  carbamic esters, 37
  tetraethylammonium, 204
  tetraethylpyrophosphate, 37
  veratrum alkaloids, 33
Antidiuretic activity of rat serum, 497
Antifilarial action,
  of hetrazan, 217
  220 substances tested for, 239
Antimalarial activity of
  dichlorophenyl*iso*propyldiguanide in birds, 438
  several drugs in *P. berghei* infections of mice, 409
Antituberculous compounds,
  comparison of some synthetic compounds with streptomycin, 188
  intracorneal infection as means of testing, 77
  tested in mice and guinea-pigs, 178
  thiosemicarbazones as, 549
Antrycide,
  absorption and persistence of, 445
  in experimental trypanosomiasis, 25
Assay,
  automatic apparatus for, 381
  of adrenaline-*nor*adrenaline mixtures, 142
  of thyroid activity by mouse anoxia method, 315
Aureomycin, in experimental psittacosis and lymphogranuloma venereum, 611
Auricle of rabbit, actions on, of
  acetylcholine, 335
  metabolic substrates and inhibitors, 87

B

Blood-brain barrier, attempts to influence passage of substances into brain, 147
Blood-sugar level, effects of cabbage extracts, 21, 455

C

Cabbage extracts, effects on blood-sugar level, 21, 455
Carbamic esters, effects on frog muscle, 37
Carbidium ethanesulphonate, pharmacology of, 287
Carotid sinus reflex and contraction of the spleen, 505
Chloramphenicol in experimental psittacosis and lymphogranuloma venereum, 611
Cholinesterase in cat serum before and after stilboestrol, 395
C.N.S., action of tubocurarine on cat's, 49

Cornea,
anaesthetization of rabbit's by non-surface anaesthesia, 461
tuberculous infection of mouse's as test of antituberculous compounds, 77

D

Diamines, enzymic oxidation of, 625
Dichlorophenyl*iso*propyldiguanide in avian malaria, 438
Digoxin on dog heart-lung preparation, 306
β-Dihydrosolasodine, cardiac action of, 118
Dihydroxyphenylserine, formation of *nor*adrenaline from, 431
Dracunculus insignis, production of lactic acid by, 62

E

p-Ethylsulphonylbenzaldehyde thiosemicarbazone, toxic and antituberculous effects of, 549

F

Filariasis,
chemotherapy of experimental, 239
mode of action of hetrazan, 217

G

Gastric secretion
effect of sodium dodecyl sulphate, 1
inhibition by stilboestrol, 389
Guanidines, reflex actions caused by aryl, 65

H

Heart-lung preparation of dog,
anti-accelerator cardiac action of solanum alkaloids, 118, 517
effects of digoxin and of ouabain, 306
Hetrazan
action on filarial worms, 217
estimation of in biological fluids, 210
Histaminase, oxidation of aliphatic diamines by, 625
Histamine,
estimation of free and conjugated in body fluids, 526
toxicity in mice reduced by promethazine, 510

I

Insulin, effect on adrenaline and *nor*adrenaline content of suprarenal medulla, 417
Intestinal motility and analgesics, 584
*Iso*thiourea derivatives, reflex actions caused by, 323

L

Lactic acid production by *Dracunculus insignis*, 62
Licheniformin A5, pharmacology of, 474
Local anaesthetics, effect of physostigmine on surface action of, 461
Lymphogranuloma venereum, therapy of experimental, 611

M

Methionine, effect on methylation of *nor*adrenaline *in vivo*, 604
Methonium compounds, synthesis and estimation of, 424
Morphine and intestinal motility, 584
6-Morpholino-4:4-diphenylheptan-3-one, pharmacology of, 125
Myocarditis in rabbits, effect of sodium salicylate, 9

N

Narcotics and the phosphates of brain, 465
Neoantergan, hypothermic effect of, 195
*Nor*adrenaline,
effect of insulin on content in suprarenal medulla, 417
effect of methionine and of thiouracil on methylation of *in vivo*, 604
estimation of in mixtures with adrenaline, 142
formation from dihydroxyphenylserine, 431

O

Ouabain, on dog heart-lung preparation, 306

P

Penicillin in experimental psittacosis and lymphogranuloma venereum, 611
Pethidine and intestinal motility, 584
Phenadoxone, pharmacology of, 125
Phenanthridine compounds,
activity *in vitro*, 398
in *T. congolense* and *T. rhodesiense* infections, 261
in *T. cruzi* infections, 277
Phenergan,
action in protecting mice against lethal doses of histamine, 510
hypothermic effect of, 195
Phosphates of brain, effect of narcotics, 465
Physostigmine, effect on action of non-surface anaesthetics on cornea, 461

Proguanil, chloro-derivative highly active in avian malaria, 438
Promethazine, action in protecting mice against lethal doses of histamine, 510
Psittacosis, therapy of experimental, 611

R

Rat serum, antidiuretic action of, 497
Reflex actions of
aryl guanidines, 65
*iso*thiourea derivatives, 323
Renal secretion, effect of sodium cyanate in rats, 13

S

Sex hormone activity of analogues of triphenylethylene, 3 6
Sodium cyanate, renal effects of, 13
Sodium dodecyl sulphate, effect on gastric secretion, 1
Sodium salicylate, effect on serum induced myocarditis in rabbits, 9
Solanum alkaloids, cardiac action of, 118, 517
Solasodine, cardiac action of, 517
Spleen, contraction of and the carotid sinus reflex, 505
Stilboestrol, effect on,
gastric secretion, 389
serum cholinesterase, 395
Streptomycin, effect in experimental tuberculosis compared with
synthetic substances, 188
thiosemicarbazones, 549
Sulphones, antibacterial action and metabolism of five, 565
Suprarenal glands,
adrenaline and *nor*adrenaline content after insulin, 417
liberation of adrenaline from in the rabbit, 542
Sympathin,
nature of hepatic and splenic, 173
studies on, 165
Sympathomimetic amines, effects on denervated nictitating membrane, 485

T

Terramycin, in experimental psittacosis and lymphogranuloma venereum, 611
Tetraethylammonium, anticurare activity of, 204
Tetraethylpyrophosphate, effects on frog muscle, 37
Tetrahydrosolasodine, cardiac action of, 118
Thiosemicarbazones in experimental tuberculosis, 549
Thiouracil, effect on methylation of *nor*adrenaline *in vivo*, 604
Thyroid activity, measurement of by mouse anoxia method, 315
Toxicity of
carbidium ethane sulphonate, 287
dichlorophenyl*iso*propyldiguanide, 438
histamine to mice after promethazine, 510
licheniformin A5, 474
phenadoxone, 125
Triphenylethylene, sex hormone activity of analogues, 376
Trypanosomiasis,
antrycide in, 25
phenanthridine compounds in, 261, 277
Tuberculosis,
chemotherapy of, 178
comparison of synthetic substances with streptomycin in, 188
effects of two thiosemicarbazones and streptomycin in, 549
use of intracorneal infections in screening tests, 77
Tubocurarine chloride, action on cat's C.N.S., 49

U

Urine, isolation of methonium compounds from, 424

V

Veratrum alkaloids, sensitization of potassium by, 33

PRINTED IN GREAT BRITAIN BY FISHER, KNIGHT AND CO., LTD.,
THE GAINSBOROUGH PRESS, ST. ALBANS.
